500,000 was a transfer. The mint commenced paying out the new aliver coin to-day. Ten bundred and fifty thousand dollars in the new coin were paid this morning to Messrs. Adams & Co. for different parts of the country. We shall doubtless now have a full supply of this new coinage, and it can be distributed more expeditiously through Messrs. Adams & Co. than in any other way. We understand the entire

force of the mint is engaged in this new coinage.

The steamship Humboldt, at this port from Havre and Southampton, brings four days later intelligence from all parts of Europe. In commercial matters there was nothing new or important. Quoiations for cotton were firm, and the demand steady. Breadstuffs were dull and depressed. A decline in wheat is reported. Supplies large, and heavy arrivals anticipated. In financial affairs, the conversion of the public debt attracts the most attention. The Chancellor of the Exchequer has slightly modified some of the most important points of his first proposition. He now makes the following proposals:

The various minor three per cent stocks, amounting in all to about £10,000,000, are to be paid off—the holders having the option, before the 3d of June next, of taking £100 in cash for every £100 stock, or of selecting in preference.

ing £100 in cash for every £100 stock, or of selecting in preference—

£82 10s, three and a half per cent stock, guaranteed against any reduction of interest for forty years, and which would yield £2 17s, 9d, per annum.

£110 two a half per cent stock, also irredeemable for forty years, and yielding £2 15s, per annum, or £100 exchequer bond, with coapons, bearing interest at the rate of 2½ per cent for a certain period, which is yet to be decided, but which will be under ten years, and 2½ per cent thereafter.

This will be the sole extent of the compulsory conversion—manely, £10 000,000. It is proposed, however, to allow the holders of Consols and Reduced, which amount to £500 000,000 and constitute two thirds of the national debt, to convert their stock in a similar manner, within certain limits, if they should see fit to do so.

Each holder is therefore to have the option of commuting the whole of his three per cents into three and a half per cents, at the rate of £100 of the former for £22 19s, of the latter—this privilege being altogether without restriction; or he may change them for £110 two and a half per cents, or for £100 exchequer bonds, with the proviso that the total amount issued of each of these two latter securities shall not exceed £30,000,000.

The Free Banking bill has passed the Senate of Louisiana, and will, without doubt, become a law.

The Mechanics' Banking Association has declared a semi annual dividend of four per cent; the State Bank of Georgia a semi-annual divinend of five dollars per share; the York Manufacturing Company a dividend of four per cent, (\$40 per share;) and the Nashua and Lowell Rail road Company four per cent, (\$4 per share.)

The Trustees of the Mercantile Mutual Insurance Com

pany have declared a dividend of thirty-five per cent, payable in scrip on the 9th of May next. Also, interest at the rate of six per cent per annum on the outstanding certificates of 1951 and 1852 will be paid at the same time; and the certificates of 1851 and twenty-five per cent of those of 1852, will be paid and cancelled on the

10th of August next.

We deem it proper to the Albany Extension certificate holders of the Harlem Railroad Company to say, that at the meeting of the stockholders of this company, held last Friday, it was there stated by Mr. Schuyler, the Prosident, that in consequence of the prosperous and increasing business of the company, on the Albany Extension, during the last six months, that the next interest due upon them will be paid in cash. This important fact to those holding these certificates is very essential to their understanding to know before exchanging seven per cent certificates for the common stock of the Harlem, which only pays four per cent. At this meeting it came out that English capitalists have been buying up the stock and bonds of this company, and a request was made by some of the agents representing these parties in London for an adjournment, that they may be fally apprised, but it was not considered necessary, as sufficient public notice had been given, as required by law.

The stock of tobacco in the State warehouses in Baltimore, on the 1st of January, 1853, was 11,759 hogsheads; inspected last week, 986 hogsheads; inspected previously, \$,604 hogsheads—making in all, 17,349 hogsheads. Exported since January 1st to foreign ports, 8,268 hogsheads. Stock now in warehouses and on shipboard, 9,081

Sec. 3. And be it enacted, That in case the President, or other proper officer, of any bank, institution, or other corporation, mentioned and described in this act, shall fail or refuse to furnish the statement required by this act to the Appeal Tax Court aforesaid, on or before the day hereinbefore specified for that purpose, then for each day that shall thereafter clapse until the said statement shall be furnished, the said bank, institution, or other corporation, shall pay to the Mayer and City Council of Baltimore the sum of twenty-live dollars.

Sec. 4. And be it enacted, That it shall and may be lawful for any bank, institution, or other corporation mentioned or described in this act, to agree, in any year, with the Appeal Tax Court aforesaid, as to the amount and value of the capital stock of such corporation or of the deposits therein, liable to taxation by the Mayor and City Council of Baltimore, and for the payment by such corporation of the said city taxes for the said year, on the amount so agreed on and determined, instead of recourse being had to the individual stockholders and depositors, for the payment of the said city taxes for the said year, on the amount so agreed on and betermined, instead of recourse being had to the individual stockholders and depositors, for the payment of the said city taxes for the said year, on the amount so agreed on and determined instead of recourse being had to th

A bill has passed to its third reading in the Massacha etts House of Representatives, requiring each and all of the banks in the Commonwealth to constantly keep in their vaults an amount of specie equal to ten per cent of their capital, and that when, from any cause, the specie on hand shall fall below that proportion, all discounting shall cease until the requisite per centage shall be attained.

The Finance Committee of the lower house of the Legislature of Massuchusetts have presented a report showing the condition of the public finances on the 1st of ary, 1853. It appears by this report that on that day the State debt amounted to \$6,685,705; the State assets were \$6,865,749—leaving a balance in favor of the State of \$170,000. Various other matters, such as funds, public lands and claims, owned by the State, which cannot be called assets, being either beyond reach at present, or else being such as are held sacred in trust, as hospitals and school funds, &c., foot up \$4,000,000. The excess of expenses over income last year is set down at \$70,451. The receipts during the present year will probably be \$586,000; the total expenses, \$625,000—leaving a deficit this year of \$39,000. In addition to this, temporary loans, scrip of 1851 for ordinary expenses, and the cost of convention, fall due this year, making \$230,000 to be provided in addition to the regular deficit of \$39,000. With this the committee presented and recommended the passage of a bill providing for a State tax of \$300,000, for the first time for many years.

The Air Line Railroad bill, authorizing the construction of a railroad through Worcester county, to form a con-pection in a new line from the North to the South, chrough Maryland, and the Metropolitan Railroad bill, authorizing the construction of a road through Washing con, Frederick and Montgomery counties of Maryland, to the District of Columbia, from some point in proximity with the Baltimore and Ohio Railroad, passed the House of Delegates of that State a few days since. There is no

doubt they will pass the Senate.

The gross earnings of the Naugatuck Railroad Company in 1852 amounted to \$216,984 62, against \$190,227 55 for the previous year, showing an increase of \$20,757 08, The transportation expenses in 1852 amounted to \$97,. 518 12, leaving as net revenue for the year \$113,486 50. After paying interest on debt, and several items for construction and equipment, there remained a balance of \$85,256 85. This road cost \$1,262,240 88; equipments \$157,267 41—total, \$1,409,568 29. The amount of capital issued is \$926,000; amount of seven per cent bonds

Orleans 2, Savannah 2, and 1 each for San Francisco, Valparaiso, Corpus Christi, and St. John, N. B. The Norwich Courier of the 23d inst. makes the follow

ing statement:

It is currently reported in the streets that the Norwich and New York Steamboat Company of this city have finally and formally declined to renew their contract with the Norwich and Worcester Railroad Company to run their boats in connection with the road for another term of five years, upon the terms proposed by the railroad; one item of said terms being—such is the report—that the steamboat company pay to the railroad a bonus of one hundred thousand dollars for the contract.

In connection with this rumor we have also another, to the effect that the steamboat company have just bought up the New York and Providence propeller line, started by William P. Williams, Esq., a gentleman of well known business energy and enterprise, formerly resident in this city, but now of New York, for the purpose—in part, at least—of diverting freighting business from the Norwich and Worcester line to the line via Providence. The object of our steamboat company in this movement, deubtiess, is to checkmate or head off the Norwich and Worcester Railroad, and bring the road to what they consider reasonable terms. We shall in due time see how this matter is to end.

ctt, were appointed a committee to draft resolutions expressive of the ense of this meeting upon the denth of their associate, Charles Shields, Jr., who reported the following:—

Whereas, it has pleased the Almighty disposer of events, in his wise providence, to call from among us by death our beloved associate, Charles Shields, Jr., therefore
Resolved, That while we deeply mourn the death of him who has thus been called in the morning of his days, we have the consolation that our loss was his eternal gain, having the evidence from the uniform kindness of his disposition, and his strict sense of right, that he has changed this mortal for a happy immortality; and although his sent is now vacant, yet will he live in the memory of his associates.

Resolved, That while we bow with submission to the will of Providence—believing, as we do, that all He does is right—we trust that this bereavement will draw us to a contemplation of that important change through which we all must pass, and that we may so live that when called to die we may again join our young associate in that place where friends shall meet to par no more.

Resolved. That we sincerely sympathize with the parents of our associate in their sad bereavement. The tender cord is broken. No more will they be cheered on earth by their youthful soldier: but oh! the Joyful, happy thought, he is now a soldier of the Cross of Christ, for he, when on earth blessed the children and said. "Of such is the kingdom of Heaven."
